

SHRN 2024 Data collection Webinar Information for primary schools

Maria Boffey
SHRN Knowledge Exchange
& External Affairs Manager
June 2024

A strategic partnership with **Public Health Wales**, funded by **Welsh Government** and integrated with **The Welsh Network of Health and Well-being Promoting Schools** (WNHWPS).

Brings schools with academia, policymakers and practitioners from health and education together to promote evidence informed approaches to improving children's and young people's health and well-being in school settings.

Cited in over 30 Welsh Government policies and strategies as providing support for the delivery and evaluation of health and well-being policy agendas and interventions including the **Whole-School Approach to Mental Health and Well-being** (2021) and **Estyn's Healthy and Happy Report** (2019).

What we do to improve children's health and well-being ...

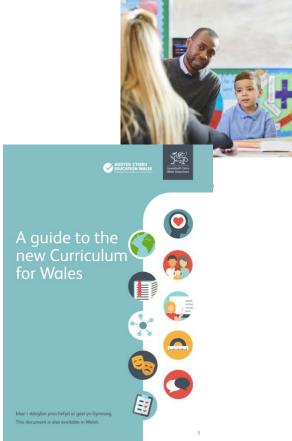

- Provide robust and bespoke health and well-being data for schools, regional and national stakeholders.
- Provide a national infrastructure to co-produce high quality school-based health and wellbeing research.
- Generate new research evidence on how best to improve children's and young people's health and well-being in the school settings.
- Facilitate the translation of school health and well-being research evidence into practice for health and well-being improvement.

ADDYSG CYMRU
EDUCATION WALES

Framework on embedding a whole-school approach to emotional and mental well-being

SHRN plays a significant role in the development and delivery of the Curriculum for Wales Health and Well-being Area of Learning and Experience, as well as the planning, delivery, monitoring, and evaluation of the Whole-School Approach to Emotional and Mental Well-being.

SHRN provides...

A data strategy for self-evaluation and school improvement:

- School level reports to enable schools to target their response and prioritise their learners' health and well-being.
- An evidence-based framework that enables schools to measure objectively and apply data universally to all.
- Monitoring of the health and wellbeing of vulnerable population subgroups.

SHRN provides...

Professional development and networking opportunities:

- Opportunities for purposeful collaboration with like-minded schools.
- Support for school cluster approaches enabling action planning, evaluation, and feedback.
- Engagement with practitioners, researchers, and policymakers.
- Access to SHRN resources and events.

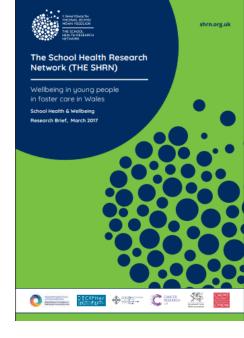

SHRN provides ...

The Translation of school health and well-being research evidence into practice:

- SHRN aggregated and anonymised reports to enable data sharing and discussions with key stakeholders in the school community.
- Integration with WNHWPS informs work at national, regional, and local levels.
- Key data for Public Health Wales to identify what works to improve health and well-being in schools.

SHRN supports...

The Whole-school Approach to Emotional and Mental Well-being and The Curriculum for Wales:

- A data led practice infrastructure to positively influence children's health and well-being within the whole-school approach.
- A targeted approach to Personal and Social Education (PSE) as data can be viewed according to year group and genders.

SHRN Supports...

School culture development:

- Co-production- providing data that can help to ensure pupil voice is heard, evidenced and factored into school planning.
- Supporting cultures of reassurance and empathy.
- Consent and safeguarding. Our research has been reviewed and approved by Cardiff University Ethics Committee.
- Encouraging confident discussions about health and well-being priorities at all levels of the school community.
