Exploring School Factors Affecting the Introduction of the Whole School Approach to Emotional and Mental Well-being

A new journal article has just been published. This article delves into essential recommendations for policymakers to effectively support the implementation of the Whole School Approach to Emotional and Mental Well-being Framework. It highlights the importance of integrating services and initiatives, adopting multitiered systems of support, enhancing access to school-based mental health services, and implementing effective discipline practices. These strategies are crucial for creating a supportive and effective environment for the Framework's success.
